There was an increased movement of wheat to market yesterday, and selling was rather heavy early in the session. Foreign markets opened lower and the general tone during the first hour was bearish. Monday's reports of rain in many sections of the wheat belt continued to have considerable effect in depressing prices until late in the usion, when the tide turned. Reports received at that time indicated that the rainfal had been insufficient and Kansas advices all pointed to serious damage. Simultaneously there was a general firming of the foreign markets and an improvement in the cash and export demand. As a result all active options closed higher.

Corn receipts were comparatively large, but there was an excellent outside demand to keep prices steady. After a short period of liquidation this grain was firm in sympathy with wheat. Trading was mainly in the hands of scalpers and small speculators.

July wheat opened 14614c up and closed 14c up. July corn opened %6% up and closed %c up.

July oats closed 14c off.

Produce was in good demand and generally firm for top-grade fruits and vegetables. Trading in local securities was heavy. Bank of Commerce was notably strong. Yesterday's bank clearings were \$10,806,675; balances, \$1,295,436. Discount rates were

New York, April 22.—Spat cotton closed quiet, 1-16c lower; middling upinnds 9 13-16c; middling Gulf 10 1-16c; sales 3.229 bales; futures closed steady, April nominal; May 9.54c; June 9.58c; July 9.58c; April nominal; May 9.54c; June 9.58c; July 9.58c; April nominal; May 9.54c; June 9.58c; July 9.58c; April nominal; May 9.54c; The market opened steady, 2 to 7 points lower, this being an indifferent response to weak Livergood cables and generous tort receipta, but by 10:20 the whole market had been bid up, with July 9.68c, or within a points of last night's close. Nevertheless, the conservative members of the trade noticed the outside supporting orders were not as ritors as of sale, wise miny longs were selling for nofilia Livergool made a feeble effort to conform to the strength here, but soon suffered a relative and closed met 1 to 25 points lower, with the tone casy. Supplied that large weak London interests existed and that a sharp break was at hand prempted selling for both accounted the same strength here. The comment of the same a very heartsh weekly creptenest, Then came a very heartsh weekly creptenest, Then came a very heartsh weekly creptenest and weather report, and a tremendous estimate for to-morrow's receipts at New York. These indusences started urgent unloading of long cotton, and not until July had broken to 9.43c was there a sudden buying aroused to check the deline. For the rest of the day the market was requisit, although disposed to rally some on covering rand new buying. The close was steady, with indees ret 5 to 1 points lower. Firm spot infalled news and pirkingth in futures at New Orleans he ped the late market here.

Liverpool, April 22—cotton—Spot in fair demand and at unchanged prices. American middling 5 11-20c. The sales on the day were 10,000 bales, including 10.400 American. Receipts 12.000 bales, including 10.400 American. Receipts 12.000 bales, including 10.400 American. Petures opened steady and closed easy: American middling 51-16c. July 2.55c. July 2.55c. July

BOGS-Although the receipts were the largest for many months, yet it was only a good moderate supply and no more than should be received every day. The quality was fair, several leads of good biutcher and heavy hogs being on sale. The market opened a little slow, but the best hogs, 200 lbs, average or more, sold full sloady with Monday, while the medium grades were 5c lower and slow sale. Pigs and lights were 5c lower and the Southwest and trashy kinds almost unsalable at any price. A few more losses of good hogs suitable for the butcher trade would have found ready sale. The trade weak-shed toward the close, and several loads, mostly late arrivals, were held over.
Fair to good heavy hogs, 220 lbs, average and above, sold at \$767.0; medium weights, 190 to 250 lbs, at \$5.000. 251.15; the bulk at \$7.0507.25; lights, 105 to 120 lbs, at \$5.000. 5.76; the bulk at \$7.0507.25; lights, 105 to 120 lbs, at \$5.000. 5.76; the bulk at \$7.0507.25; lights at \$6.057.25; lbs at \$5.000. 5.76; the bulk at \$7.0507.25; light light, 105 to 120 lbs, at \$5.000. 5.76; the bulk at \$7.0507.25; light light, 105 to 120 lbs, at \$5.000. 5.76; the bulk at \$7.0507.25; light light, 105 to 120 lbs, at \$5.000. 5.76; the bulk at \$7.0507.25; light light, 105 to 120 lbs, at \$5.000. 5.76; the bulk at \$7.0507.25; light light, 105 to 120 lbs, at \$5.0007. 5.76; the bulk at \$7.0507.25; light light, 105 to 120 lbs, at \$5.0007. 5.76; the bulk at \$7.0507.25; light light, 105 to 120 lbs, at \$5.0007. 5.76; and the bulk at \$7.0507. 5.76; and the b

FINANCIAL.

ONE HUNDRED TON SMELTER WILL BE BUILT AT COPLEY

LIBERTY GROUP OF MINES O FLAT CREEK OWNED BY THE GREAT WESTERN GOLD CO.

The Mines, Already Well Developed, Contain Large Bodies of Ore, Ensity Worked by Smelting-Smelter to Be Built at Once.

A mining deal has been concluded in Redding which means the installment of a 160-ton, smelter at Copies immediately and added impetus that will be given the district by the operations of a big company. The Liberty group of mines in Flat Creek District has been purchased by the Great Western Gold Company of St. Louis.

The group comprises about 900 acres of

Flat Creek District has been purchased by the Great Western Gold Company of St. Louis.

The group comprises about 900 acres of land extending from Copley to within a mile of Iron Mountain. Of the ground 600 acres are patented. The company investigated the property and found it estisfactory. Men are now at work on the smelter site. Material for the building is now being purchased. A complete 100-tor smelter will be installed as rapidly as the work can be done.

The smelter will be near Copley, Surveyare now being made for an aerial tramway that will connect the mine with the smelter plant.

are now being made for an aerial tramwa that will connect the mine with the smelter plant.

Since the first of the year the company has been doing extensive development work on the property, under the management of Mr. Chambers.

Twenty-five men are employed in the mine and more are being put on daily. Two tunnels are being driven from the Copley side of the mountain. The upper one gives a depth of 166 feet and the lower 340 feet. The latter will be driven 100 feet along the vein, which has been proved to contain high values by the extensive work done on the Iron Mountain side.

The Liberty group was known in years past as the Red Rock mine. Some exceedingly rich ore from the mine was run through a cannon-ball mill about fifteen years ago by the original owners. Some of the frichest rock in Shasta County was taken from the property now in the hands of the Great Western Gold Company.

There are four distinct ore bodies on the Liberty group. They vary in width from four to ten feet, and are known to be at least 6,000 feet in length. At a depth of fifty feet an extensive chute of copper ore was encountered. The ore runs from 15 to 29 per cent in copper and carries about 150 in gold. Several tunnels opening the ledge at various points have all shown good values.

The consideration in this deal is not given out. It is, however, stated that the development of the mine and the installment of the smelter will involve an expenditure of close to \$30,000, as the company intend to increase the smelter capacity to 1,000 tons daily at the earliest possible moment.

Mr. Chambers will be manager for the consideration in the carries of the constaint of the smelter will involve an expenditure of close to \$30,000, as the company intend to increase the smelter capacity to 1,000 tons daily at the earliest possible moment.

pacity to 1.000 tons daily at the earliest possible moment.

Mr. Chambers will be manager for the company, E. F. Adams, president of the company, is now on the ground and will remain until the smelter is under way. T. S. Henderson & Co. of St. Louis are the fiscal agents for the company and also interested in the company and also interested in the company.

These mines have lain idle for years, on account of a lack of knowledge of the proper methods for treating the ores and inability of the owners to equip the mine properly. Other mines in this district, which formerly produced thousands of dollars in ore values, are to be opened soon.

The Great Western Gold Company has created a big boom in this county.—From Redding (Cal.) Searchlight of April 5.
